

SPR Caravan Kit Solar Peak Four 3.0

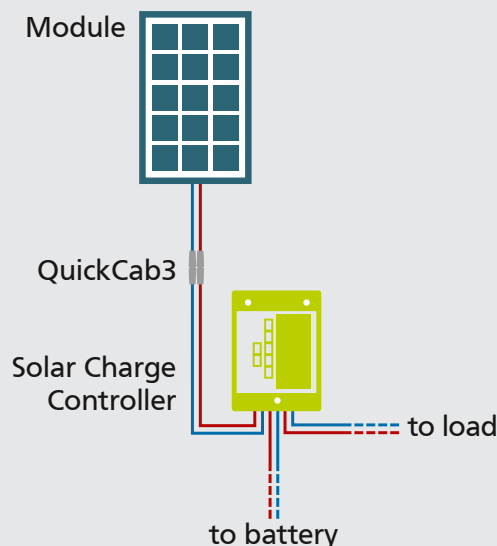

600108 • 5/2014

These integrated sets allow for an easy operation of 12 V-consumers such as light, radio, or 12 V pond pumps, etc. If you connect a 230 V inverter, you can also supply any electrical device just as if you were on the grid!

This set is an ideal solution if you need solar power only in the evening hours, or weekends, e.g. in your garden or holiday home.

This kit includes the charge controller with MPP Tracking for best energy harvest.
